

# UNDERCOUNTER PLUS DISHWASHER

**PDX** PDX-1003JD Series

POWERFUL  
& EFFICIENT

## ■ Tall Undercounter :

PDX-1003JD undercounter plus dishwasher is 350 mm taller than the undercounter and 590 mm shorter than the door-type dishwasher (including opening height). It can wash faster and more dishware like a door-type dishwasher.

## ■ 3 Heaters (Heating Elements) :

Total of 3 heaters are installed; 2 heaters in the rinse tank, 1 heater in the wash tank. This allows the water to be heated faster and maintain high temperature which enables the dishwasher to be used continuously.

## ■ Tempered Glass Window :

Washing process is observable through large tempered glass window to ensure dishware hygiene and operation.

## ■ Electrical Compatibility :

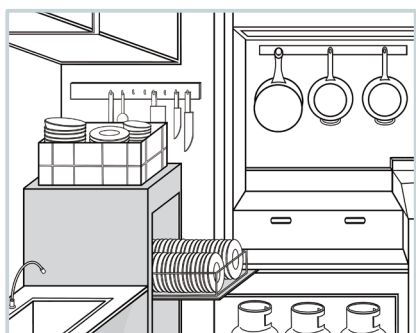

Electrical specification are available in 220V and 380V with various total rated loads: 5kW, 7kW, 9kW and 12kW.

## ■ Internal Chemical Dispenser :

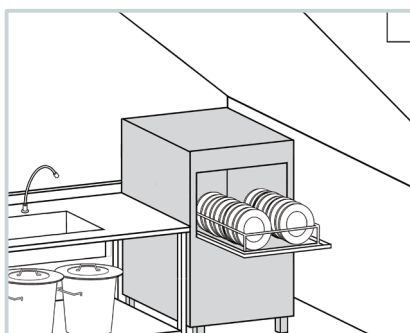

Liquid chemicals can be used by connecting to the built-in chemical dispenser and solid chemicals can also be used by placing tablets on stainless tablet case located under the strainer pan.

## WHERE-TO-USE

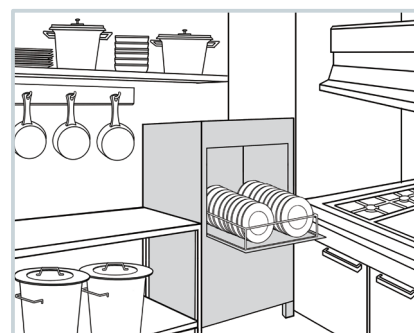

Undercounter plus dishwasher can be used in limited kitchen spaces; under the cabinet, shelf, stairs etc. Objects can be placed above the dishwasher. It is about 200 mm shorter than door-type and does not require clearance space above.

Under the shelf

Under the stairs

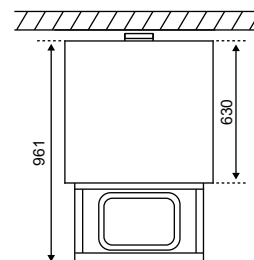

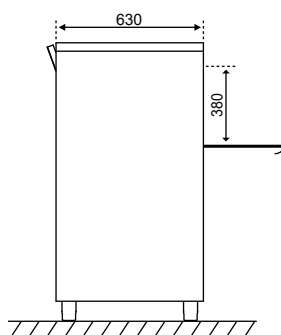

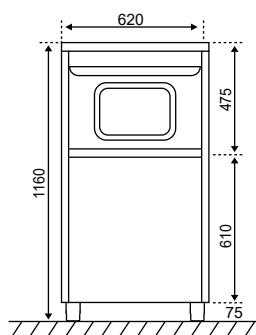

Narrow spaces
