

DOUBLE DOOR-TYPE DISHWASHER

PDX PDX-1004 Series

POWERFUL
& EFFICIENT

PRODUCT ADVANTAGES

■ Double Capacity :

Double-wide wash chamber can wash 2 racks efficiently at once.

■ Double Rinse Pumps :

High-quality rinse pumps are installed at each side of the rinse tanks for better overall rinse quality.

■ "S-shaped" Stainless Wash Arms :

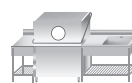

"S-shaped" stainless wash arms provide maximum hygiene by using high pressure jet nozzles and reaching corner blind spots.

■ Tempered Glass Window :

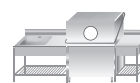

Washing and rinsing processes are observable through the tempered glass window to ensure dishware hygiene and machine operation.

■ 3 Heaters (Heating Elements) :

Total of 3 heaters are installed; 2 heaters in rinse tank, 1 heater in wash tank. This allows the water to be heated faster and maintain high temperature which enables the dishwasher to be used continuously.

Right Corner (L → R)

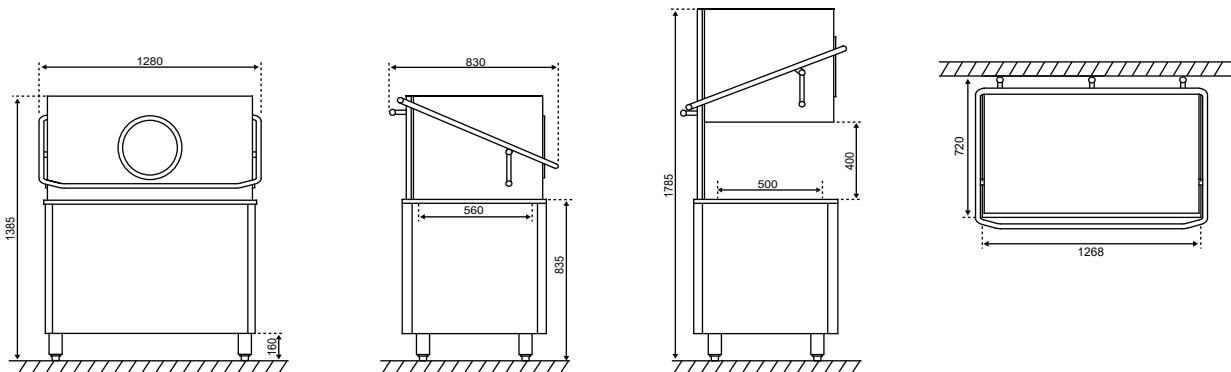

RACK CONVEYOR ALTERNATIVE

Users who require heavy duty warewashing solution equivalent to rack conveyor dishwasher are highly recommended to use the double door-type dishwasher. This model does not require both left and right side sink and work tabling which can solve limited kitchen space problem. It can be also be installed in L-shaped corner configuration similar to regular door-type and wash twice the dishware capacity at once.
